Homework Expectations

- Reading Interacting with words (10-15mins each day).
- Maths May choose to practise number facts, use learnt strategies to solve problems, access prodigy online
- Spelling May choose to practise using PLD strategies and goal sounds to build words

In-Class Support

There are always students who work through tasks easily and accurately and those who need extra support and guidance. All students are catered for in our classroom, with a selection of activities:

- Smaller ability/focus groups.
- One-on-one feedback to pinpoint needs and set learning goals.
- Teacher, teacher aides and Learning Support staff to support all individual needs.
- Range of technologies to assist in learning.

Inclusion Teacher: Mrs Barb Tuite

General and Inclusion Teacher Aides – timetabled throughout the week

Guidance Officer: Ainslee Cheung

Curriculum Focus

English (Inquiry)

What makes an excellent short film narrative?

In this unit, students engage with a variety of imaginative texts (both film and print text) that include literary devices and/or deliberate word play to shape meaning. They plan and present a film review that includes a summary of the story, a review and a recommendation.

Students read, view and comprehend a range of imaginative texts that support and extend students as independent readers, including picture books, short novels, rhyming verse, poetry and dramatic performances.

Through texts, students identify characteristic features of imaginative texts and describe how characters, events and/or topics are developed using language for expressing and developing ideas.

Students engage in shared and independent writing and/or learning experiences in response to imaginative texts. They develop speaking and listening behaviours when interacting with others, contributing to discussions and presenting information in response to texts with peers.

HASS

How can we use places sustainably?

In this unit, students:

- explore the concept of 'place' with a focus on Africa and South America
- describe the relative location of places at a national scale
- identify how places are characterised by their environments
- describe the characteristics of places, including the types of natural vegetation and native animals
- examine the interconnections between people and environment and the importance of environments to animals and people
- identify the purpose of structures in the local community, such as local government, and the services these structures provide for people and places
- investigate how people use, and are influenced by, environments and how sustainability is perceived in different ways by different groups and involves careful use of resources and management of waste
- recognise the knowledge and practices of Aboriginal peoples and Torres Strait Islander peoples in regards to places and environments
- propose actions for caring for the environment and meeting the needs of people.

Mathematics:

Students further develop proficiency and positive dispositions towards Mathematics and its use as they:

- build understanding of number facts, fractions and decimals to deepen an appreciation of how numbers work together
- use materials and digital tools to recognise line and rotational symmetry and create symmetrical patterns and pictures
- create and interpret grid reference systems and directions on a map to locate and describe positions and pathways of location of interest
- develop and use surveys and digital tools to generate data and conduct a statistical investigation.

Science:

Students will learn that living things have life cycles. They will describe and compare life cycles of different animals and plants. Students will also identify what different living things depend on to survive and represent this using a food chain.

The Arts: Drama

Exploring issues through drama

In this unit, students will make and respond to drama by investigating ways that issues and ideas about the world can be explored and expressed through drama.

Students will:

- explore ideas and narrative structures through roles and situations and use empathy in their own improvisations and devised drama around an issue
- use voice, body, movement and language to sustain role and relationships and create dramatic action with a sense of time and place in an issues-based drama
- shape and perform dramatic action around an issue using narrative structures and tension in devised and scripted drama, including exploration of Aboriginal drama and Torres Strait Islander drama
- identify intended purposes and meaning of drama, starting with Australian drama, including drama of Aboriginal peoples and Torres Strait Islander peoples, using the elements of drama to make comparisons.

Health and Physical Education: Health:

Making healthy choices

In this unit, students will identify strategies to keep healthy and improve fitness. They will explore the *Australian guide to healthy eating* and the five food groups. Students will understand the importance of a balanced diet and how health messages influence food choices. They will create meal plans that reflect health messages.

Health and Physical Education: Physical Education:

Basketball/handball - students will develop specialised basketball and handball skills. They will practise and refine fundamental movement skills to perform in game-style activities. They will examine the benefits of being healthy and physically active, and how these benefits relate to team sports. Students will apply strategies for working cooperatively and apply rules fairly through team activities.

Technologies: Will be taught and assessed in Semester 2.

Languages (Japanese):

In Term 1 in Japanese, the Year 4s will be learning to exchange greetings, participate in classroom routines and recognise the basics of the Japanese script. Important greetings such as おはようございます, こんにちは, こんばんは and as well as how to introduce themselves in Japanese will be learned. Classroom instructions such as. しずかにしてください,たってください,すわってください will be learnt as well as the vocabulary for classroom items such as pencils, desk, chairs, books, glue, scissors (eg えんぴつ, いす、はさみ、のり、ノート) as well as helpful expressions such as すみません. How to ask what something is as well as who it belongs to will be learnt (sentence patterns such as *Kore wa nan desu ka*? and *Dare no (stationary item) desu ka*?) The importance of the word ください and its use in simple sentences will be explored. The introduction of particles and their importance in the formation of sentences will be discussed. Students will consolidate their recognition of the three scripts of hiragana, katakana and kanji.

Special Events/Excursions

Please see last page

How can parents/carers help

- Ensure homework is completed regularly and support them in their tasks.
- Read with them regularly. Get them to talk about what they are reading and ask questions.
- Ensure your child arrives to school on time and discuss their day with them.
- Communicating regularly with class teacher and keep up to date with newsletters and notes.

Work with honour
